

DRYiCE

The AI foundation for the **Digital Enterprise**

DRYiCE is a division of HCL Technologies focused on building industry-leading software products for transforming and simplifying IT and business operations by leveraging AI and cloud.

Our vision focuses on:

**Enabling a Service
Oriented Enterprise**

**AI-Led Service
Assurance**

**Driving Enterprise-Wide
Digital Agility**

**Business Flow
Intelligence**

VALUE OF DRYiCE

Ever-changing market conditions and volatile customer demands make it imperative for enterprises to adapt to unanticipated challenges. Being agile means more than fast, it means flexible and thorough and that requires multi-functional collaboration, especially with your strategic IT partners.

Artificial intelligence (AI) and Automation technologies have been pushed to the forefront and are strategic, competitive differentiators enabling enterprises to reap enormous benefits, such as a more informed user through increased visibility and control, quality services, improved productivity, and much more.

DRYiCE is a dedicated and rapidly growing software division of HCL that delivers best-in-class implementations of AI for enterprises. Our exclusive products and platforms enable enterprises to operate in a leaner, faster, and cost-efficient manner, while ensuring superior business outcomes.

DRYiCE PORTFOLIO
